

LANE PREPAREDNESS COALITION

Earthquake Hazards and Early Warning Systems (ShakeAlert)

August 8, 2018

Springfield Justice Center (EOC)
230 4th Street, Springfield
2:30 p.m. to 4:00 p.m.

Presenting Agency: University of Oregon, Department of Earth Sciences

Professor Douglas Toomey, Ph.D., and his team focus their work on tectonic plate boundaries, seismic hotspots, continental volcanoes and earthquake subduction zones. They also represent Oregon in the Pacific Northwest Seismic Network which is working to develop and employ the West Coast Earthquake Early Warning System (ShakeAlert).

Dr. Toomey will talk about earthquake hazards in Oregon and how the ShakeAlert earthquake early warning system can be used by business, industry, government, and the public to become better prepared to respond to earthquakes.

**THE COALITION WORKS COLLABORATIVELY TO INCREASE COMMUNITY AND
ORGANIZATIONAL DISASTER RESILIENCE**
